## NEW - Vortex 2 Cleaning Gun

**Introducing the new Vortex 2 Cleaning Gun, which is exclusive to Autosmart in the UK.**

What makes the Vortex 2 different from other Cleaning Guns, such as the Tornador and Tornador Black?

- Robust build, with stainless motor and parts
- Removable brush for agitating the surface and lifting dirt
- Optional upholstery extractor attachment fits onto wet vac
- Multi-directional swivel coupling to avoid tangles
- Less air hungry than machines such as Tornador Black
- Easy maintenance
- Quieter in use than Tornador Black

### Using the Vortex 2

Vortex 2 uses a combination of high pressure air and chemical to clean or dress a surface. It is extremely fast and safe and easy to use.

- Creates a tornador effect to remove dirt from hard to reach areas that other methods can't reach
- Removable brush is perfect to agitating the surface. It also acts as a diffuser to help reduce overspray
- Adjustable chemical application allows greater flexibility with the amount of chemical required
- Optional upholstery extractor attachment ensures deeper cleaning and faster drying than a wet vac.

### Where can I use the Autosmart Vortex 2 cleaning gun?

Just like the Tornador and other cleaning guns, the Vortex 2 cleaning gun is very flexible and can be used for a wide range of applications such as

#### VEHICLE INTERIOR:

- Hard to reach areas – vents, seat belt holders and seat rails, gearshift boot, door pockets, joins between trim.
- Delicate surfaces – leather, headlinings, suede effect upholstery, switchgear, sat nav screens.
- Cleaning and restoring texture to floor mats and upholstery.

#### VEHICLE EXTERIOR:

- Hard to reach areas – panel gaps, trim, around badges, crevices in truck chassis
- Removing water or polish residue from crevices, grilles and panel gaps
- Light / medium under bonnet clean
- Wheels
- Convertible roofs
- Motorcycles
- Large surface areas such as trucks and agricultural vehicles
