

ART. 843020

Hose reels accessories and hoses

The new RAASM brake is designed to control the hose rewinding speed in the series 430, 530, 540 and 560 of all the open hose reels (included the swivelling version, the ABS and painted or stainless steel models). The "Speed Control", thanks to an easy and fast assembly, is usable everywhere and from any operator. It guarantees a controlled and safety rewinding speed in case of accidental hose release. The hose reel equipped with "Speed Control" is not suitable for installation in potentially explosive atmosphere.
